## Call your children's doctor today and ask for Texas Health Steps checkups for each child.

During a Texas Health Steps medical check up, the doctor will look at your child from head to toe, checking for health problems you may not know about. The doctor will also see if your child is growing and developing like other children their age. These checkups can help catch health problems before they get bigger and harder to treat.

- Children ages 3 years and older need Texas Health Steps medical checkups at least once a year
- Babies need these checkups more often than that

### It may be time for your annual checkup

Whether you already feel healthy or are managing a long-term condition, you should see your primary care physician (PCP) once a year. This is an important chance to connect with a doctor. And it is **available at no extra cost to you.**

### Need help?

- Finding a doctor for your child's Texas Health Steps medical checkup
- Setting up a checkup for you
- Have questions about Texas Health Steps or checkups
- Need a case manager to help you find and get other services

We can take your call Monday to Friday 8am to 5pm using the phone number on the back of your member ID card.

Orders can be placed by calling **1-888-628-2770 (TTY: 711)**, Monday to Friday, from 9 AM to 8 PM local time. Please have your ID and order ready before you call.

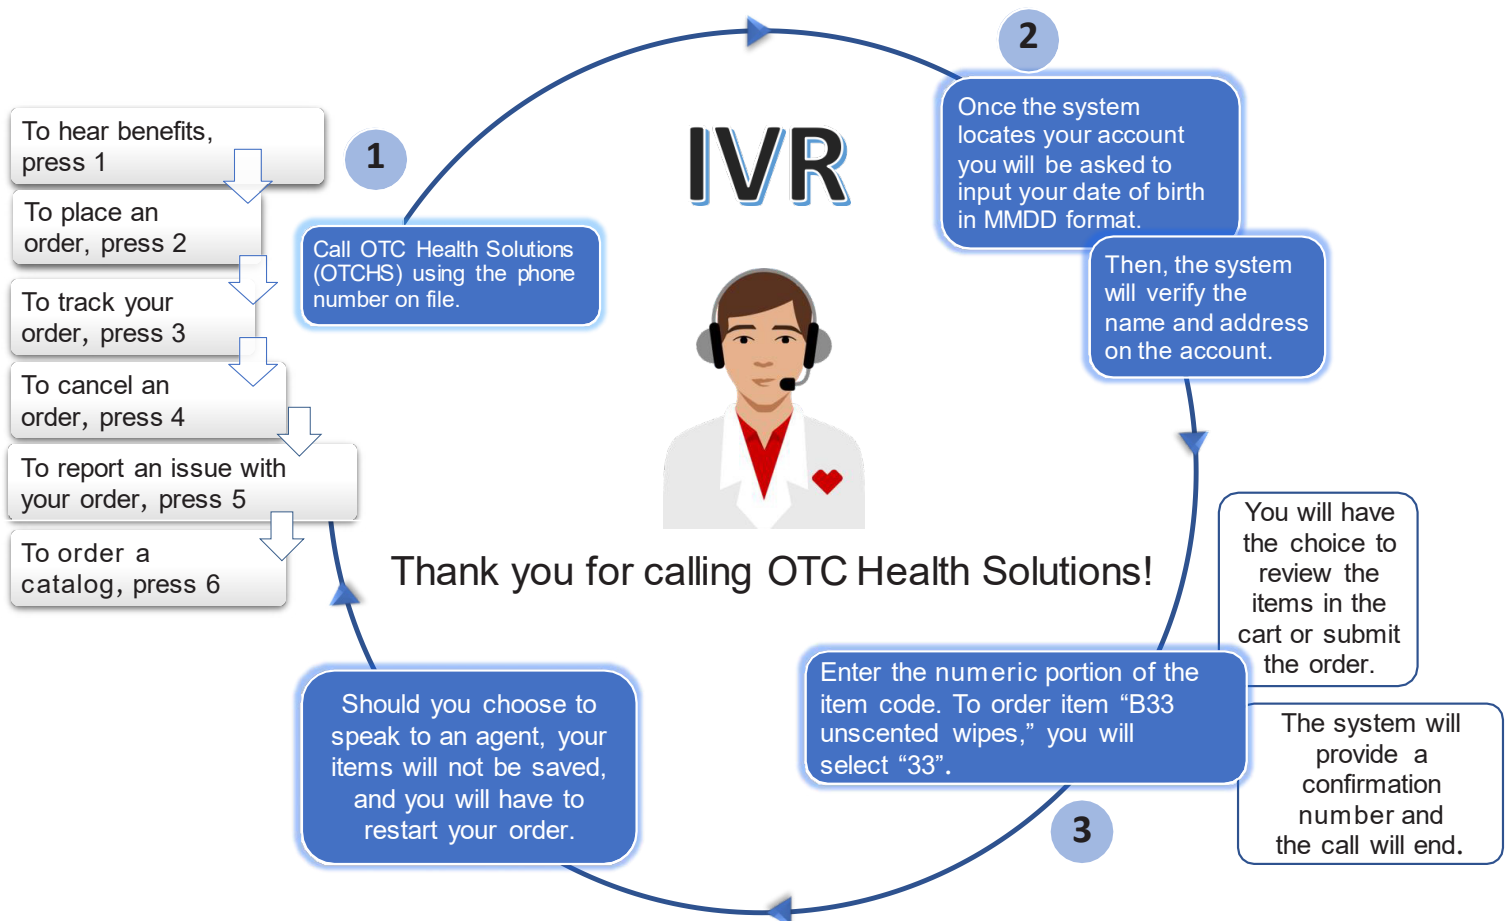

#### How to place an order by phone (IVR system):

- Call OTCHS using the phone number on file. Please note, the phone number on file is provided to OTCHS by your health plan. If you wish to use a different number to order through the IVR system, you can provide the alternative number to an OTCHS agent so it can be added to your account.

- When prompted, enter the numerical portion of the item code.

**Example:** If you would like to order item “B33” you will select “33” and wait for the prompt to confirm the item information and ask if the selection is correct. Please allow the system to complete the statement before making your selection.

- Once the order is complete, you will have the choice to review and edit the items in the cart, submit the order, or speak to an agent. Should you choose to speak to an agent, your items will not be saved and you will have to restart your order.

**RETURN POLICY:** Due to the personal nature of the products, no returns or exchanges are allowed. If you haven't received your order or if you received a defective or damaged item, please call OTC Health Solutions within 30 days of placing your order.

- If your item is not in stock, an item of similar or greater value may be substituted in your order.

## The following are tips to consider if your child is not feeling well.

The following are tips to consider if your child is not feeling well. Contact your doctor if you want to use a new medication for your child.

- The doctor can tell you if it is safe to give your child.
- The doctor can help you figure out the right dose of a medicine.

For more information:

- If you need help finding a doctor, call us and we can help.
- We can even connect you to a nurse.

## Do not wait for a medicine to work if your child has an emergency!

Urgent care centers will treat minor problems like:

- Mild burns and scrapes
- Mild strains and sprains
- Mild cough and sore throat
- Runny nose
- Ear pain
- Mild fever
- Rash and skin problems

Signs of an emergency include:

- Chest pain
- Trouble breathing.
- Not eating or drinking
- Being very fussy
- Sleeping more than usual
- Cough for more than 2 weeks
- A cold that is getting worse
- Fever more than 100.3 in a baby, (less than 3 months old)
- Severe bleeding
- Blacking out

Your PCP is always the best place to start if you have health questions! If your doctor is busy and your child is sick, look on our website for urgent care services. Urgent care is for mild problems, and they can often see you on the same day. They have after hours and weekend services. There are even virtual options.

Remember, call your doctor if you are not sure if urgent care or the emergency room are right for your child.

## Oral Health for Women Who are Pregnant

Dental care is important and safe during pregnancy. The changes that happen in the body during pregnancy can lead to different types of swelling and issues in the mouth. The health of a mother affects the health of a baby. For example, the germs that cause tooth infections (cavities) can be passed from a mother to her child.

### 6 Oral Tips for Women Who are Pregnant

- See a dentist as early in your pregnancy as possible
- Brush teeth twice a day with fluoridated toothpaste
- Floss once a day
- Choose healthy snacks and avoid foods and drinks containing sugar
- Drink fluoridated tap water

If you are pregnant and don't have a dentist, please contact us. Women who are pregnant have dental benefits at no cost to you.

## Extra Support for Monthly Periods

Aetna Better Health of Texas covers certain over-the-counter period (menstrual) care products. You can get monthly care items like pads, tampons, cleansing wipes and more.

## Take Charge of Your Health

An annual checkup is important. Your doctor can help answer questions about:

- How to get to a healthy weight and stay there
- How to manage your stress
- What to do if you plan to have children
- Disease screenings and treatments
